WE WANT YOU

To Become an American CPR Affiliate Instructor!

Teach Classes.

Make Money.

Save Lives!

Why? It's FREE to apply and affiliate!

Our Affiliate Instructors can subcontract and earn extra cash by training for our clients and can also instruct their own independent classes using our materials and certifications.

We offer our American CPR student packets and course materials for up to 50% LESS than the cost of other national course materials!!! We provide outstanding ACPR Affiliate Instructor discounts and Special Promotional Pricing on student materials & teaching equipment. All products can be found at www.AmericanCPR.com

We offer the least expensive national training materials in the country, and our courses are more upbeat and faster paced, so you can easily undercut all your competition with the most entertaining, time- and cost-efficient CPR, First Aid and AED classes in your community... American CPR courses follow National and ECC guidelines as well as OSHA standards. The students' certifications are current for two years.

**As an American CPR Affiliate Instructor, you have the opportunity to make significant additional income each month conducting open enrollment / community CPR, AED, and First Aid classes. (Each month, American CPR receives hundreds of requests from individuals looking to enroll in a community class in their area. American CPR offers only corporate and group training, we forward all these requests to Affiliate American CPR Instructors who are hosting American CPR community classes.)*

What's the difference between subcontracting and independent teaching?

With subcontracting, we do the marketing, scheduling & contracting with the client. Once we hire an Affiliated Instructor, we provide you all the materials you'll need including class outlines and handouts, and when the class is completed, we prepare and mail the certification cards directly to the client. You get a check in the mail for doing what you do best; teaching. **Essentially you provide your time, talent, and skills -- American CPR does the rest!** When you teach independently, you do the leg work, the paperwork and purchase your own materials.

We encourage our Affiliate Instructors to take advantage of both teaching options!

How? The steps to becoming an American CPR Affiliating Instructor are as easy as 1-2-3!

1. Complete and sign the attached ICCP form (Instructor Certification Challenge Program). **Submit via email, fax, or mail** with copies of ALL CURRENT CERTIFICATIONS and a current Photo ID.
Upon acceptance into the program, an email with your new instructor number will be attached *Please keep with records and reference when placing orders*
2. Purchase your Instructor Manual and any other special promotional offer or materials.
3. Complete and submit the Instructor Agreement form.

At this point you are ready to begin teaching the American CPR program to your groups and buy your student materials at our exceptionally discounted prices, as well as be eligible to teach for our clients as a subcontractor to earn additional income when opportunities arise in your area.

When? NOW! If you sign up right away, you can take advantage of the excellent pricing offered on ALL student and instructor materials, and start earning extra income right away!

Where? Submit application and all documentation (see reverse) to:
